

To whom it may concern:

We would like to recommend Twin Cities Siding Professionals and Twin Cities Student Painters for the quality of their workmanship and customer service. Members of both crews were always polite and friendly. They worked hard and always cleaned up at the end of the workday. The on-site managers were always prompt in answering our questions and thoroughly responsive to all of our requests. When weather delayed the completion of our job prior to an open house, the owner and crew of TCSP went the extra mile and offered to paint the portion of the house that was completed, and they did so without even being asked.

We are happy to provide our endorsement of TCSP for your consideration when selecting a contractor for a siding and/or painting project.

Tom Hunziker and Mary Egan
