

Dear Ann (&Terry),

We had our house sided by your company in 2004. Are we pleased with the job and your installers/painters?

Yes, yes, yes, yes, yes, yes, yes, yes, yes, yes, yes, and did we say yes?

We had planned to send this letter off earlier to let you how great the siding looks and what a talented group of young men you had on our job. It only took us/me two years, but we have enclosed some before (2) and after photos (3) to show you what a dramatic difference it made to the look of our house. As you can see, we were also motivated to have some keystone walls added, some landscaping done and our deck has a new floor, railing, and stairs.

You can't tell from the pictures, but there is a walking path behind our house. We have had strangers stop to tell us how great the house looks, they like the siding, they like the color, they like the flowers. Take a bow, you started it all!

So, I guess by waiting two years, you get really cool pictures and lots of accolades, too! Please feel free to use these pictures. You may also use us as a reference or have people drive by to see how great a house looks after Twin Cities Siding Professionals does their magic.

Sincerely,

*Mr. & Mrs. Charles Dorniden*
