Thanks for the great job!

For several years we have talked about replacing our homes siding. After a hail storm this spring we also needed a new roof. Through out the summer we took several bids before contacting Twin Cities Siding Professionals. Although your bid was the highest, after watching your CD and hearing Chads presentation we felt confident that your company would be the best contractor for our project.

Our decision turned out to be a good one. The TCSP staff of Chad, Nancy and Nate were all very knowledgeable and professional. Your installation crew of Mike and his team were also courteous and professional and they did an excellent job.

We are very pleased with the quality of your product and the service we received from Twins Cities Siding Professionals has exceeded our expectations. Our house looks great and we would highly recommend Twins Cities Siding Professionals to anyone.
