Subject: Thank You

To the Twin Cities Siding Professionals,

We want to thank you for the excellent siding work you did on our home. We especially appreciate the sharp window wrapping job Mike did. He and his crew worked hard and they were excited to do the work. They respected our property and our wishes about how things should be done. Chad made sure everything was done to our satisfaction which made the difference between an excellent job and an average job. Nancy and Ann in the office answered our questions and kept us informed. You promised a job well done and you delivered. Thanks for giving our house the face lift it needed.
