

Mark, many thanks to you & the crew! I'm very pleased with the result of your work, particularly with the professional manner in which you addressed my many concerns throughout the project. It was a pleasure to have you and your crew work on my home (Kate) thanks for keeping things rolling along and keeping me informed throughout the entire process. (Thank you to her in lieu for me, too!) Dave - you did me convinced that I would feel confident about using TSP from our very first meeting!

Thank you all for a job well done and being that rare organization that knows that it's all about the "details"!

Shirley Drow
