TC Siding and specifically the project management by yourself and Nate have been great and a joy to work with. Angilo was very respectful and professional on site. I was very cautious of anyone in the construction and remodeling industry as I know the construction industry. I am a partner in a manufacturing and construction business and would recommend TC Siding. All of you are TC Siding. TC Siding has been a joy to work with.

I discovered TC Siding at the St. Paul Home show. Attention to details, knowing the importance of installation details for the Hardi-Plank, handling issues on-site and a complete detailed presentation at the point of sale are just a few of the reasons that I chose TC Siding as my contractor.

I don't have another house at this point that needs new siding, but will call TC Siding if the need arises.

I'm out of town and will have to call Nate or you to schedule a meeting.

Thanks again.
