

*Thank you for sending over the best crew to my neighbor's house at 2040 Juliet.*

*They are the hardest working crew and are very neat. there was never any mess in my yard. They are quiet and are always cleaning up after themselves.*

*The space between our home and the job site are very close and we haven't heard any foul language. These men are very hard working and (in my opinion) should get employee of the month awards. If you want the best job done, get Mike and his crew.*

*Sincerely,  
Rita Mars*
